

PRODUCT UPGRADE!

Indoor/Outdoor Range

DuraVision has introduced an industry leading upgrade to the Indoor /Outdoor mirror range!
Now, as well as the best quality mirroring technology on the market, DuraVision has incorporated new leading edge technology with the Aluminum Composite Material Back (ACM). This new enhanced material is lightweight and robust, and will withstand the harsh conditions of the industrial sector and still maintain a visual style essential in a retail environment.

"Industry Leading Technology"

Benefits and Features

- The Aluminum Composite back has a significantly longer life than any hardboard backed mirror on the market.
- A cleaner finish and more superior looking mirror.
- More resistant to harsh conditions with enduring strength.
- Enhances visual appeal on the shop floor.
- Superior to steel backed mirrors, as Aluminum will not rust.
- Another industry leading innovation from DuraVision.

MODEL:	68020JP	68038JP	68056JP	68082JP
SIZE:	12"	18"	24"	32"
WEIGHT:	2 lb	3 lb	4 1/2 lb	9 1/4 lb

"Robust and Durable Construction"

Technical Information
